These codes are very much how I interpret them and should not be taken as what has actually been applied for or granted. For example I assign all Cafés to A3 but if they only serve drinks then A1 may be sufficient. If they serve alcohol then I assign A4 though that may not be necessary. Some premises have multiple use codes. I have listed suppliers to business and industry as category B rather than A. The presence or absence of a planning application should not be regarded as accusatory as I have no knowledge of the rules and/or exemptions.

Key

Sections in italics are for roads off Gloucester Road which can be considered part of the community
 The "Category" column has been standardised as much as possible to indicate the primary business
 The "Name" column reflects the trading name as indicated by exterior signage
 The "Previously" column shows known previous uses for the building in reverse chronological order
 Numbers in bold have been confirmed on the building or other sources; others have had to be guessed.
 The numbers on the "odd side" between 237 and 257 are not in any rational order!
 "The Promenade" occupies 28-38 and the shops are marked "P". Numbers 6-26 are often incorrectly given this name.
 Blank lines are inserted to keep the sides of the road in sync and do not reflect the actual size of the buildings.
 Unoccupied premises are indicated by "Vacant"
 "S/H" indicates second-hand
 It should be noted that many cafés and restaurants also offer a takeaway service, particularly the Indian and Chinese ones.
 Restaurants are usually licensed "with food" but bars for "vertical drinking" have been noted explicitly.
 Planning Categories are for current or most recent usage. Alcohol licences are for current use only.
 Quite a few of the "National Chain Stores" are actually franchises with local owners
